

## APRIL 21ST WEEKLY FISHING REPORT

### Lake Nacimiento Report

Spotted Bass and White Bass are still going strong. White Bass has become one of the most caught fish, with boils happening periodically in the middle of large coves like Las Tablas. When fishing for Whites or Spots, use top water lures, to medium depth lures. Top water Poppers, Rooster Tails and spoons produce best results. Largemouth and Smallmouth Bass bites are doing well, fish shores near deep water like mouths of coves and rocky shoreline sections. Use swimbaits, crankbaits and buzzbaits for best results.

### Lake San Antonio Report

Striper bite has slowed down a little bit recently, they are still being caught with swimbaits, crankbaits, and Krocodiles or large spoons. Crappie bite is still going strong with Crappie Jigs, Mealworms, and small Rooster tails doing well. Catfish have begun to bite consistently, use anchovies, bloodbait, or nightcrawlers in the morning and best in evening, in medium to deep water near shorelines. For Largemouth/Smallmouth Bass use swimbaits, crankbaits, and buzzbaits near shallower water to deep water transitions. Hot Spots: Half Moon Bay, Three Fingers, and rocky shorelines nearing the Dam.

Water Temp: 62-65degrees  
Water Elevation: 726.6 ft  
Weather: Highs near 88  
We are expecting some partly cloudy mornings clearing into beautiful warm days.
