

JUNE 20TH WEEKLY FISHING REPORT

Lake Nacimiento Report

Spotted Bass continue to be the most caught fish at Lake Nacimiento. Spots in the 1 to 3 pound range are very common and are being caught on plastics, small spoons and Rooster Tails. White Bass continue to boil near the mouth of coves, best section being the mouth of Las Tablas. Using small spoons and Rooster tails produce the best results. Crappie continue to bite, less regularly than the Spotted Bass.

Lake San Antonio Report

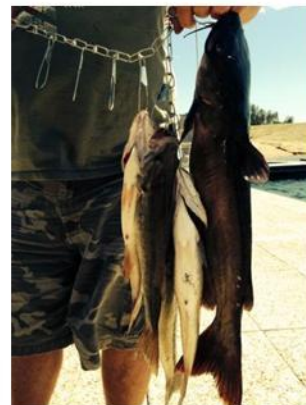

Stripers are still making intermittent appearances for Kayak Anglers. Lures and cut anchovies and shad are working well for Striped Bass. Crappie bite is still good with small jigs working the best for them. Largemouth and Smallmouth Black Bass are being caught frequently off the shore line and near Half Moon Bay. Half Moon Bay around the houseboats and Marina continue to be the hot spot.
