

JUNE 7TH WEEKLY FISHING REPORT

Lake Nacimiento Report

11lb 14oz Largemouth bass was caught this week using a Roboworm near the mouth of Las Tablas. White and Spotted Bass remain the most caught fish this week. Many White Bass are being caught and can occasionally be seen boiling in and around the mouth of Las Tablas cove. Spotted Bass are also congregating in that area. Using plastic worms, small crankbaits, white Roostertails, and small swimbait is producing the best results.

Lake San Antonio Report

Stripers are still being caught, although the most prevailing bite seems to be Crappie. Crappie are being pulled out consistently near the shoreline of Half Moon Bay, using any small jigs, swimbaits or spoons is best. Black Bass are being caught frequently near the point at Half Moon Bay as well as the rocky shoreline directly across from the moored Marina. Hand launched vessels are still allowed as long as you have them Quaqqa inspected. Kayak anglers are having great luck and enjoying the solitude and freedom the closure of the launch ramps provides.

As always we would love to hear your fish tales! Please come in to the Marina or Store and tell us your tale, providing pictures would be highly appreciated!

JUNE 7TH WEEKLY FISHING REPORT

This week in pictures

Morgan Oliver and Doug Slaton caught this behemoth Largemouth Bass using Roboworms near the mouth of Las Tablas this week. Weighed in at 11 lbs 14 oz, would have been the record, had they gotten it weighed by a qualified person. What makes this even more amazing is the fact Morgan (right) pulled this monster in using 6lb fishing line! Congratulations again Morgan, that is a trophy fish!

Records:

White Bass:	4 pounds, 2 ounces
Largemouth Bass:	9 pounds, 14 ounces
Spotted Bass:	5 pounds, 3 ounces
Smallmouth Bass:	4 pounds, 10 ounces
Channel Catfish:	20 pounds, 2 ounces
Crappie:	3 pounds, 8 ounces
Bluegill:	1 pound, 12 ounces
